

Qualifying Miami-Dade Water and Sewer Department customers can apply for utility bill assistance from OUR Florida

Qualifying Miami-Dade Water and Sewer Department (WASD) customers who are behind on their WASD bills can apply for utility assistance from OUR Florida. While the moratorium on disconnections of water service due to non-payment remains in place, the department still encourages you to pay what you can, when you can to avoid accumulating multiple bill balances.

OUR Florida is a program overseen by the Florida Department of Children and Families. Funding is provided by the federal Emergency Rental Assistance Program. The program provides assistance for past due rental or utility bill balances and for up to three months of future payments not to exceed 15 months of total assistance.

Go to OUR Florida's [website](#) for more information on the program qualifications or to apply.
