Robert Weissert of Florida TaxWatch: "Amendment 2 is Important for Everyone"

In the latest edition of the Florida Chamber Series on Free Enterprise, Robert Weissert, Executive Vice President of Florida TaxWatch, discusses Amendment 2 and its impact on all Floridians.

"It would be a major concern if this goes down because it's the only protection in the constitution for non-homesteaded property, so we would see significant iniquity in the property tax system but more importantly we would see negative effects on Florida's economy," said Weissert.
